

WEBSITE: <https://www.alarko-carrier.com.tr/tr>

ABOUT COMPANY:

The foundation of Alarko and its development step by step is the story of two young entrepreneurs who do not have any capital other than their ambition and intelligence. Founded in 1954 by Ishak Alaton and Uzeyir Garih as a collective company. Alarko became Alarko Sanayi ve Ticaret A.Ş. and turned into a joint-stock company in 1963. In 1998, after a partnership with Carrier, the world leader in the air-conditioning sector, with equal shares, our title became Alarko Carrier Sanayi and Ticaret A.Ş. Being open to the stock market since 1992 and declaring no loss until today, our company is one of Turkey's most respected and powerful companies.
